

25X1A

Chief of Station, [REDACTED]

Chief, WE

TDY [REDACTED]

25X1A

1. [REDACTED] 25X1A
[REDACTED] sometime during the second week of February. His detailed 25X1A
itinerary will be cabled. 25X1A

2. He is particularly interested in talking with those people in the Station 25X1A
who have direct knowledge and solid understanding of operations that require 25X1A
technical support. The purpose of his trip is to get your ideas on how best 25X1A
to spend research money, what problems to try to solve and what types of 25X1A
solutions you think might be operationally feasible. While no general review 25X1A
of equipment now available is contemplated, we have recommended to [REDACTED] 25X1A
that he also discuss with CO5 a specific [REDACTED] device which is now under 25X1C
development.

25X1A

3. We would like to encourage constructive comment by the Station on the 25X1A
direction of the [REDACTED] R&D effort. We believe that it is essential for 25X1A
operations personnel to give whatever advice they can which may help improve 25X1A
our technical research program. In discussions with [REDACTED] we recommend 25X1A
that the Station concentrate on suggestions which directly relate to the technical 25X1C
[REDACTED]
